HANNAH JENNIFER

Business Intelligence & Reporting Analyst | Power BI | Tableau | SQL | Executive Reporting

Galway, Ireland | +353 899855011 | hannahjennife07@gmail.com | Hannah Jennifer | LinkedIn

PROFESSIONAL SUMMARY

Business Intelligence and reporting professional with 8+ years of experience in financial services data, regulatory reporting and analytics, including advanced Power BI and Tableau dashboard delivery, strong SQL across Sybase, Teradata, Oracle and MySQL, building reporting objects and data models in Axiom Controller View. Experienced in working with large, complex datasets, translating business requirements into reporting and visualisation solutions, moving manual reporting to automated, repeatable processes, and presenting findings to executive and technical stakeholders. Strong focus on reporting accuracy, data quality, documentation and timely delivery. MSc in Business Analytics, University of Galway (2026, First Class Honours).

CORE SKILLS

Business Intelligence & Visualisation: Power BI, Tableau, Advanced Excel, Dashboard Development, Executive Reporting, KPI Design, Scorecards, Management Reporting, Data Modelling, Data Visualisation

Data & Querying: SQL, Oracle SQL/PL-SQL, Sybase, Teradata, MySQL, Data Cleansing, Data Validation, Data Quality, Reconciliation, Large and Complex Datasets

Reporting & Automation: Automated Reporting, Reporting Pipelines, Data Refresh, Reporting Modernisation, Regulatory Reporting, Axiom Controller View, Regulus, Governance Reporting, Performance Measurement

Programming & Analytics: Python, R, Unix, Statistical Analysis, Regression, Generalised Linear Models

Delivery & Collaboration: Agile, JIRA, Confluence, Perforce, Requirements Gathering, Stakeholder Engagement, UAT, Documentation, Data Lineage, Multi-Time-Zone Delivery

PROFESSIONAL EXPERIENCE

Data Analyst (Reporting & Analytics) | Bank of America, Chennai, India *Mar 2022 – Aug 2025*

- Analysed upstream reporting data for the Counterparty Credit Risk team, supporting risk and Finance-domain reporting for a US financial institution.
- Built and presented Power BI and Tableau visualisations during client user-test calls, turning complex data and regulatory issues into clear summaries for business and executive stakeholders.
- Wrote SQL queries on Sybase to cleanse, validate and reconcile large, complex datasets, improving reporting accuracy and consistency.
- Investigated JIRA-logged exposure issues, traced root causes back to upstream data sources and managed them to resolution within Agile delivery cycles.
- Contributed to the review of a manual risk-reporting process, mapping the current state and supporting improvements in data validation, reporting accuracy and governance.
- Collaborated with a global, multi-time-zone team to meet reporting schedules and deliver outputs on time.

Analyst | Tata Consultancy Services (TCS), Westpac account, India *Dec 2021 – Mar 2022*

- Developed and maintained reporting objects supporting regulatory reporting in an Agile, multi-stakeholder environment.
- Gathered client requirements and translated them into development tasks, supporting on-time, quality-checked delivery.
- Used Teradata, JIRA and Confluence for development, tracking and documentation across globally distributed teams.

Axiom Developer | UST Global, Bangalore, India *Jan 2021 – Dec 2021*

- Developed Axiom ControllerView reporting objects across financial regulatory reporting processes.
- Built technical capability across Axiom, Unix and database environments to support reporting accuracy.
- Worked within structured, Agile-aligned delivery processes while progressing toward consultant-level responsibilities.

Senior Developer | Datacore Solutions Pvt. Ltd., Chennai, India *Oct 2020 – Jan 2021*

- Progressed from Axiom Developer to Senior Developer, building reporting objects and supporting the full delivery lifecycle.
- Used Axiom Controller View, DbArtisan, PuTTY, Perforce, JIRA and Regulus for development and issue investigation.
- Supported client-focused technical delivery and structured issue resolution in a regulatory reporting context.

Financial Analyst | Protominds Pvt. Ltd., Chennai, India *Oct 2019 – Oct 2020*

- Applied structured financial analysis and reporting to business requirements and client deliverables, building domain knowledge in financial products and reporting.

Axiom Developer | Capgemini Pvt. Ltd., Morgan Stanley account, Pune, India *Jul 2014 – Mar 2019*

- Developed Axiom ControllerView reporting objects and data structures for Morgan Stanley across large-scale, multi-year programmes, including FFIEC 101, FFIEC 102, FR Y-9C and FR Y-14.
- Applied data and reporting accuracy checks within development to meet requirements from multiple stakeholders.
- Used Axiom ControllerView, JIRA, DbArtisan, RapidSQL, Sybase, Regulus and PuTTY in structured, service-oriented delivery.

SELECTED PROJECTS

Interactive Client Reporting Dashboard | Business Intelligence

Designed a reusable BI reporting solution to reduce repetitive manual downloads and Excel-based validation. Transformed and modelled data, built KPI-driven dashboards and created a more efficient, client-ready reporting workflow.

Tools: *Power BI, Data Modelling, Data Transformation, KPI Design*

Regulatory Reporting Transformation | Bank of America

Analysed a manual risk-reporting process to map the current state and identify root causes of inefficiency. Designed a future-state reporting approach and supported improvements in data validation, accuracy and governance.

Tools: *SQL, Excel, Power BI, Tableau, JIRA, UAT*

ERP and Digital Transformation | Enterprise Transformation

Analysed financial reporting and audit-compliance processes, evaluated process-improvement opportunities and explored blockchain and smart contracts to strengthen transparency, automation and control.

Tools: *ERP, Process Analysis, Financial Reporting*

Weather & Statistical Analytics | MSc Analytics

Applied regression and statistical analysis to Dublin Airport weather data, developed models and communicated results through clear visualisations.

Tools: *R, Regression, Data Visualisation*

Developer & Survey Analytics | MSc Analytics

Analysed survey data using statistical testing and logistic regression, built Generalised Linear Models and communicated evidence-based insights through visualisation.

Tools: *R, GLM, Logistic Regression*

EDUCATION

MSc in Business Analytics | University of Galway *2026*

First Class Honours (1:1). Modules: Data Science and Big Data Analytics, Advanced Programming for Business Analytics, Business Modelling and Analytics, Statistical Techniques for Business Analytics, Decision Theory AI and Analytics, Enterprise Systems, Database Management Systems.

B.E. Computer Science and Engineering | Panimalar Institute of Technology, Chennai *2014*

7.9 CGPA.

CERTIFICATIONS

- Employability Award, University of Galway (2026)
- CRM Basics, PMI (2026)
- Data Analyst and Agile Certification, ExcelR Solutions (Feb 2024)
- Oracle SQL/PL-SQL (2019)
